GO_Biological_Process_2021
nuclear-transcribed mRNA catabolic process (GO:0000956)
cytoplasmic translation (GO:0002181)
cotranslational protein targeting to membrane (GO:0006613)
nuclear-transcribed mRNA catabolic process, nonsense-mediated decay (GO:0000184)
gene expression (GO:0010467)
protein targeting to ER (GO:0045047)
ribosome biogenesis (GO:0042254)
SRP-dependent cotranslational protein targeting to membrane (GO:0006614)
ncRNA processing (GO:0034470)
regulation of translational initiation (GO:0006446)
